SIXTEEN CHILDREN BURNED TO DEATH

Montreal School Building Regular Death Trap.

THE PRINCIPAL ALSO PERISHED

Miss Maxwell, Despite Firemen, Rushes Into Burnig Building To Rescue Little Ones and Never Returned—No Fire Escapes.

Montreal, Quebec, Feb. 28.—Principal Maxwell and sixteen children perished in a fire which broke out in Hochelaga School of the Protestant school commission. The school was located in a brick, two-story building in the east end of the city and was attended by about 200 children, whose parents are mechanics living in the neighborhood. The fire started from the furnace and was first noticed by workmen employed nearby. The teachers were notified, and the work of getting the children out of the building began.

The kindergarten department was located on the second floor, and it was from the rooms of this department that the children were started out but on reaching the landing found the lower hall full of smoke. Into this they refused to descend, though the way at this time was quite safe. Huddled together on the stairway at first they retreated to the rooms from which they had gone. When the firemen arrived an extension ladder was placed in position and a large number of children were rescued in this way.

Assisting in the work was Miss Maxwell. The fire by this time was making its way upwards and the smoke was growing so dense that even the experienced firemen could not stand it.

Captain Carson endeavored to get Miss Maxwell to go down the ladder, but she refused, and evading the attempt to detain her, rushed back into the back part of the building in search of others of the little ones.

When the firemen were finally able to make their way to the back portion of the building, she was found lying on the floor with a little one beside her.

All those who perished died from asphyxiation.

The building was not provided with fire escapes.

Terrible Threat of Raisuli.

Tangier, Feb. 28.—The bandit Raisuli, though he has been driven from his stronghold at Sienat and is now hiding in the mountain fastnesses, a day's march hence, still craves vengeance on the heads of those who have routed him and his followers. In time, he says, his home at Zienat will be rebuilt with the bodies and bones of the Sultan and the tribesmen who destroyed it. He has no fear of the inevitable desertion of the Shereefian army, because of unpaid wages. The bandit is most bitter against the Sultan and the foreign board, and he lets no chance escape to heap vituperation upon them. Raisuli is plentifully supplied with money, and it is this fact that causes him much uneasiness, his great terror being that some of his followers will murder him in order to obtain his wealth.

Serious Mutiny of Convicts.

St. Petersburg, Feb. 28.—Disorders have broken out among the convicts at the Akatui silver mines in southern Siberia, on account of the strict discipline. One hundred and fifty high political offenders have been placed in chains and many, including Mille. Maria Spiridonovo, who shot and killed Chief of the Secret Police Luzhenoffsky at Tambov, and other women, have been removed to prisons used for the confinement of criminals.

JOHN BULLARD TO BE HANGED.

Prison Commission Turns Down Application for Clemency.

Atlanta, Feb. 28.—John Bullard, the Cobb county white man, who murdered his daughter, and gave no other reason for his crime except to say "It was necessary," will have to go to the gallows on Friday, March 1. So Bullard has but two days more to live.

Bullard's attorneys, Herbert Clay and J. J. Northcutt, appeared before the prison commission and interceded in Bullard's behalf for a commutation to life imprisonment. The principal ground seemed to be that Bullaid is suffering from consumption, and will not live long anyhow.

After a full hearing the commission declined to recommend clemency and sent the papers to Governor Terrell with the word "declined" written across them. There is practically no doubt that the governor will approve the recommendation made by the commission.

The governor recently, at the request of Bullard's attorneys, appointed a commission, composed of physicians to examine into Bullard's sanity. They reported that Bullard was of sound mind. This disposed of his last hope outside of the prison commission, and now that is gone.

BIG SALES OF PINE TIMBER.

Industry in Georgia Has Reached Large Proportions.

Columbus, Ga., Feb. 28.—The magnitude and great value of the pine timber interests in Georgia and Alabama are illustrated by large transactions reported this week in the Industrial Index.

In a section adjacent to Waycross, Ga., 200,000,000 feet of timber has been purchased by Georgia and Florida capitalists, who will establish one of the largest saw mills in the country, and build a railroad through the tract. Alabama and Chicago capitalists have consumated a deal for 100,000,000 feet of pine timber which is located about 150 miles north of Mobile. This will be developed. A $1,000,000 lumber company at Thomasville, Ga., has purchased a railroad 17 miles in length, and will extend it 15, and possibly 45 miles.

Charged with Striking Young Girl.

Atlanta, Feb. 28.—Charged with striking a 15-year-old girl, Miss Elizabeth Strickland, Tuesday, Lem McDonald, second foreman of one of the departments at the Exposition mills, was arrested on a warrant sworn out by W. H. Strickland, the father of the little girl, for assault and battery. According to Miss Strickland's account of the affair, McDonald came up to her while she was working in the cotton mill, where she is employed as an operator, and gave her an order, which she refused to carry out, because she did not understand it, and then he slapped her in the face. She states that the attack was entirely without provocation, as she was in the dark in regard to what the foreman wanted her to do, and so could not govern herself accordingly.

100th Anniversary of Longfellow.

Boston, Feb. 28.—The universal regard in which the memory of Henry Wadsworth Longfellow is held, was given expression throughout New England Wednesday by exercises commemorating the one hundredth anniversary of the poet's birth. In Maine, where the poet was born, and in Massachusetts, where he spent so many of the important years of his literary life, the principal public observations were held, but there was scarcely a public school or literary society in this city which devoted some time to the memory of the man whose writings touched the common heart.

ENGINEER STEVENS QUITS PANAMA CANAL

Isthmian Situation Still Keeps Up Its Records

FOR LIGHTNING-LIKE CHANGES

Roosevelt Rejected the Bids Because He Says the Bankers and Not the Contractors, Would Have Gotten the Bulk of the Profits.

Washington, Feb. 28.—By an order addressed to the Isthmian canal commission, President Roosevelt, as far as it lay in his power under exising law, transferred to the engineer bureau of the army the responsibility for the further construction of the Panama canal.

He also, in the same order which took the form of a letter addressed to the chairman of the commission, Mr. Shonts, himself about to retire from all connection with the enterprise, formally recorded the abandonment for the present at least of the project of having the canal work done by contract on the percentage system.

Another feature of the order was the announcement of the resignation of John E. Stevens, as engineer in charge of the canal construction. Mr. Shonts is in New York, where he will preside at a meeting of the directors of the Panama Railroad company, of which he is president, and will, it is expected, formally resign that office.

The intention of the president is that there shall be an entire reorganization of the commission with three army officers of the engineer corps its leading members, who are to have charge of the engineering features of the canal work. The chairman and engineer in chief of the commission will be Major G. W. Goethals, and his associates will be Major D. DuB. Gaillard, and Major William L. Sibert, to rank in the order named.

These officers are all comparatively young, ambitious and energetic members of the corps.

The reorganization is to become effective imediately upon the confirmation and retirement of the old commission. Senator Joseph C. C. Blackburn, of Kentucky, who retires from the United States senate on the 4th of March, is to be made a member of the reorganized commission. The nominations of the present commission now pending before the senate include Messrs. Shonts, Stevens, Haines, Endicott, Herrod, Gorgas and Jackson Smith. Their confirmation is desired in order to remove all doubt as to the legality of certain acts they have performed in connection with the making of contracts.

The retirement of Messrs. Shonts and Stevens will leave but two vacancies, so that there will be two more retirements necessary to make way for three army officers and Senator Blackburn. As he told his callers, the president is determined that the work on the canal shall proceed continuously and thoroughly, and the temporary "dislocations" which may come as a result of the resignations of higher officials, will not be allowed to interfere with progress.

The president is unaware of the special reasons which have been influential in prompting Mr. Stevens' resignation. It surprised him very much, for as late as the middle of December, when he was here, Mr. Stevens made no mention of his wish to retire in the near future. Criticisms aimed at him in connection with canal work and he has been disposed to complain somewhat about them. Some of this criticism came out during the hearings before committees of congress. The salary question is also understood to have had an important bearing on his retirement.

It is understood that Mr. Stevens is leaving the government's service to accept a position in connection with a great engineering enterprise in this country at an annual salary more than double that he now receives from the government.

STRUCK WIFE; WAS ARRESTED.

Theatrical Man Finds Wife Beating Unprofitable in Georgia.

Macon, Ga., Feb. 28.—It tooks two trials for Joseph Durning, a white man who follows a theatrical company, to find that a man who offers trouble in the way of wife-beating, has a hard time when he mixes up with the courts.

Durning was taken into custody at the Reeves house after his wife had called for help. She said he had slapped her face. The man was fined $15 in police court. His wife, Mrs. Mabel Durning, who is an attractive woman, was at police court, and made the statement upon which the prisoner was fined.

Soon after he paid the fine and left the court he overtook his wife on the way from court to the hotel, and it was stated, again offered such abuse as caused a second arrest. He is now at police station awaiting a hearing on the charge of wife beating and also has a peace warrant out against him. Both papers were sworn out by hi wife. There will be a hearing. The two came here several weeks ago in a theatrical company, and when Durning left, it was said his wife did not want to go, and refused. His efforts to carry her away from Macon caused the disturbance.

President Castro Recovering.

Washington, Feb. 28.—A letter received at the Venezuelan legation on Wednesday from Dr. Paul, the secretary of state dated Feb. 16, states that President Castro is making satisfactory strides towards recovery. The same letter gave the details of the killing of General Paredes, the revolutionary leader, and his followers, the statement being that after they were captured on Feb. 12, at a point near the Orinoco river not very far from where they landed, they were taken to an old fortress, called the castle. Two days later Paredes endeavored to bribe his guards to permit them to escape and this the guards interpreted as mutiny, with the terrible results for the life of General Paredes and his men, and ended unhappily for the latter for their "mutiny."

Rurales Butchered by Bandits.

San Antonio, Tex., Feb. 28.—A special to the Express from Mazatlin, Tex., says: Six rurales, as they lay asleep in the shelter of the rocks in the vicinity of Tepic, were butchered by the notorious bandit, Enrique Chavez, and his band. The ranchmen and farmers on the Tepic district are in a condition bordering on panic, as it is rumored that Chavez has gathered around him other men as bloody and cruel as himself. Many efforts have in the past few months been made to capture Chavez, but his luck, nerve and knowledge of the country have always saved him.

Progress of Thaw Trial.

New York, Feb. 28.—Evelyn Nesbit Thaw was recalled by consent Wednesday morning to answer a few more question by District Attorney Jerome. In beginning his cross examination of Dr. Bingamor, the Thaw family physician, Mr. Jerome said again: "If I find this man crazy, I'll say so." Mr. Delmas said the defense would conclude its case this week. Mr. Delmas objected to Dr. Bingamon being cross examined, as an expert, and was sustained. Mr. Jerome then said he would call Dr. Bingamon as a witness for the state in rebuttal next week. Dr. B. D. Evans was recalled for cross-examination. He was on the stand when the court adjourned for recess.

NEW ICE FACTORY WILL BE BIG THING

Will Put Gainesville Third in Ice Manufacturing in Florida.

HAS A TREMENDOUS CAPACITY

The Fruit Growers' Ice Manufacturing Company Will Begin Business With One of the Most Modern Plants Ever Seen in Southern States.

The Fruit Growers' Ice Manufacturing Company is going to be a big thing for Gainesville, and it is going to place this city on record as owning the third largest ice factory in Florida, which is saying a great deal, where the weather at all times is so warm, and the demand is so great that it requires the combined forces of the State to keep the big refrigerator cars in condition for shipment of perishable products to the North.

But this is the status of the situation now. A few months ago, realizing the great and increasing demand for ice for all purposes, a few of those interested in the welfare of this section and its people, with a side view of a small per centage of interest on their investment, the Fruit Growers' Ice Manufacturing Company was organized, and Gainesville was made the headquarters.

This company meant business from the start. W. R. Thomas was elected president, C. A. Colclough vice-president, B. F. Hampton secretary and treasurer, and plans for a modern factory, with a capacity of thirty tons, were secured without delay. The bids were received, the contract let, and the result is that within the next sixty days the new plant, with its full capacity, will be in operation within less than the time specified. May 1.

A Sun reporter, with one of the stockholders, visited the scene of building Thursday. The building, which is one of the most commodious in the city, will be 122x205 and will be equipped with all modern methods and machinery for the manufacture of ice. It will contain three cold storage rooms, one 30x40, one 30x75, and one 30x103, with an aggregate capacity of between 2,500 and 3,000 tons.

The machinery has arrived, and a force is expected from the Columbus, Ga., manufacturing plant to begin placing it today. It is safe to say that the new firm will be manufacturing ice by April 15, if everything goes well.

Clears the Complexion.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. J. W. McCollum & Co.

Lard is no respecter of stomachs

No one on this green earth can eat lard-soaked food day after day and not feel its ill effects eventually. You may have one of those iron-clad stomachs which will prove unsusceptible for a time, but the hog-fat and its accompanying indigestibility will do its work sooner or later. It is an absolute fact that lard—simply hog-fat—is indigestible, and that it is not fit for the human stomach.

Cottolene, on the other hand, is made from pure, refined cotton seed oil—a product of nature which is thoroughly palatable, digestible and healthful. No other shortening contains the digestible, nourishing and healthful qualities of *Cottolene*. Even pie, that nightmare of dyspeptics, becomes easily digestible when made with *Cottolene*. How many people can eat lard-laden pie?

Ask your regular grocer for a pail of *Cottolene* and start tomorrow on the way to "lardless cookery." It will insure better for yourself and your family better food, better digestion and better health.

Cottolene shortens your food and lengthens your life.

Try it according to directions for a few weeks and you'll never go back to lard.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

ptain C. F. Canova of Palatka, attending the University, al- enjoyed a reputation at home for ice, but on this occasion, when dered "When the Whippoorwill Marguerite," his voice seemed tionally clear, and he received al encores. Captain Canova's es are always in demand in musi- ntertainments in his home town. e of the hits of the evening was oon song, "Give Me de Leavin's," M. Tench. It is quite a comp i- to Mr. Tench to say that his -up was very original, and he e a most original imitator of the . His voice was good, his songs good, and his jokes were up-to- . His "cracks" at the exorbi- rates of the Gainesville Gas and ric Power Company were appre- d by that representative audience, s demonstrated by the continu- pplause. Mr. Tench, in the opin- f his friends who appreciate stage t, should join a minstrel troupe "end man" at once.

utenant W. D. Wheeler rendered splendid way "Perhaps," which ivated his audience—especially young ladies. Mr. Wheeler is ssed of a fine voice, well trained, has made quite a success as a vo- t.

Fletcher Burnett never had a r compliment paid him than it was said he was a "natu'l born r" when it came to acting the . Mr. Burnett has always been a s a colored comedian, and this no exception. His jokes and songs also good, and he held his reputa- up to the standard which he had blished. Fletcher never fails to a hit when he appears upon the e.

y W. Corbett of the University a bass voice that is going to win im a reputation some day, if he continue to cultivate it. He sang favorite bass solo, "Out of the ," with such force and splendor he was compelled to respond to encores—and could have been ing until midnight if he had suc- bed to the ovations.

ndie Graham does not look like he ld make much of a "coon," but boy will fool the best of 'em. Be- possessed of a very quiet, unassum- nature, one would not really rea- what was in him in this line until "wound up." But Sandie showed fine advantage at this great , and his song, "I'd Rather be de Looking In Than Inside Look- ing Out," was really one of the hits of the evening.

C. Addison Pound has a voice which is not strong, but clear, mellow and magnificent—really, many thought, the best of the entire chorus. Mr. Pound sang in a clear, legible tone, "Starlight," which was well received, and was the means of showing to a musically-inclined audience the merit of his voice.

Frank Hale, who has been properly styled "The Florida Orange Blossom," made a most desirable end-man, and proved himself to be a comedian equal to the occasion. Mr. Hale had been suffering from a cold, hence his voice was impaired, and he was considerably at a disadvantage; but he made the best of the situation, and despite the adverse conditions, managed to score quite a hit in both his songs, jokes, and other work.

The first-part was concluded by a strong chorus, which will be long remembered as the best amateur first-part ever seen here.

After a brief intermission Coe and Driver, the premier clog dancers, appeared. The dancing was good, especially the work of Master Ray Driver who, on account of his miniaturesqueness, made a great hit with the big crowd before him. Master Ray is a "born dancer," as he proved himself upon this occasion. Mr. Coe was also exceptionally good, and both were recalled several times. Claude Devereau of Ocala and L. H. Jackson of this city, a clever team in buck and wing dancing, favored the audience with a few up-to-date steps, which was appreciated to such an extent that they were "danced down" before they refused to respond to another encore. Mr. Devereau, who resided here for years, in order to accommodate the management of the minstrel, came all the way from Ocala and lost a couple of days of valuable time to accommodate the people. Mr. Jackson, whose duty requires his absence from the city a great deal of the time, also made a great sacrifice to be present, which made the services of this pair all the more appreciated.

The Empire Comedy Four, consisting of Messrs. Burnett, Tench, Pound and Corbett, gave some amusing and modern incidents of comic life, applied principally to local events.

The entertainment concluded with some clever acrobatic feats of Kime, Bouis and Gibbs, all of the University, which was one of the most marvelous ameteur exhibitions of its kind ever seen in Gainesville. The young men are clever in the extreme, performing many feats which would have done credit to those of experience.

In all, the Military Minstrels were a great success, and all who attended were well pleased.

"WHISKEY" COLD CURES.

Danger of Using Alcoholic Mixtures or Coal Tar Tablets.

The most dangerous thing that one can do when affected with a cough or cold is to use a medicine that contains whiskey or a tablet that is made of some coal tar product. Putting aside all moral objections to filling up with whiskey or drugs because one has a cold, the injurious physical effect should be sufficient to keep one from using these strong medicines.

The most sensible as well as the only scientific way to treat a cough or cold is by inhaling medication that will kill the germs and give relief to the irritated mucous membrane in the nose, throat and lungs.

Among the few remedies that are used in this way, Hyomei stands pre-eminent. It is breathed through a neat pocket inhaler that comes with every outfit, and the first breath of its healing air relieves the irritation, and its continued use soon effects a thorough cure.

The best people in Gainesville always keep Hyomei at hand in the winter months, and at the first symptoms of a cold or bronchial trouble, use the remedy and prevent serious and lasting illness. If you have any doubts as to the effects of Hyomei in curing coughs, colds and all bronchial troubles, the guarantee J. W. McCollum & Co. give with every outfit should convince you of its curative powers. A Hyomei outfit costs $1, and if it does not give satisfaction J. W. McCollum & Co. will return your money.

Extra bottles of Hyomei, if needed, can be obtained for 50c, but the complete outfit is usually enough to cure several colds.

MISS ADELAIDE NICHOLS

It cures the condition which causes so much discomfort and robs that period of its terrors. Women who are troubled with painful or irregular functions should take immediate action to ward off the serious consequences and be restored to health and strength by taking

SHORT TALKS BY L. T. COOPER.

RHEUMATISM.

Old Mr. Rheumatism hangs on tight and bites and pinches when he takes hold. It's quite a job to shake him off. It's hard to believe that all the pain and trouble he causes comes from such a little thing. Just a tiny bit of acid in the blood the kidneys haven't taken care of. But the kidneys aren't to blame. I used to think they were. Now I know better. It's that over worked and over crowded stomach giving the kidneys part of its work and the kidneys can't do it. I found this out with Cooper's New Discovery. It puts the stomach in shape, that's all it does, and yet I have seen thousands of people get rid of rheumatism by taking it. That is why I am positive that rheumatism is caused by stomach trouble. Here is a sample of letters I get every day on the subject.

LAWRENCE TUSCANY.

"For a long time I have been a victim of sciatica and inflammatory rheumatism, and my suffering has been too great to describe. For weeks I lay helpless with every joint in my body so tender and sore that I could not bear to move. The slightest touch would cause me the greatest agony. Several doctors treated me but they failed entirely. I tried many remedies but nothing seemed to reach my case, so I continued to lay helpless. My kidneys and stomach were affected also. I could eat but little, digest less and gradually my strength left. I lost flesh rapidly."

"I began the use of the famous Cooper medicines of which I heard so much. To my surprise and delight I improved immediately, and after using several bottles I felt like another person. My strength and appetite returned. The pain and soreness left me and now I feel better than I have for months." Lawrence Tuscany, 1122 Aldrich Ave., North, Minneapolis, Minn.

We sell Mr. Cooper's celebrated preparations.

Mrs. Sage's second gift will be use dfor the auditorium. The school wil be known as the Pierson High school, both as a memorial of Mrs. Sage's grandmother, who lived in Southampton, and because Israel Pierson, one of Mrs. Sage's family, introduced the free school system into New York state.

Victory for Unionists.

London, Feb. 28.—The bye-election in the Brigg division of Lincolnshire Wednesday, necessitated by the resignation of Harold J. Peckitt, on account of ill-health, resulted in a notable unionist victory, Sir Berkely Sheffield being returned by a majority of 116 over Captain Guest, the liberal candidate. This will be the first time since 1894 that a unionist has had the seat. The liberal majority at the last election was 1,726.

How to Remain Young.

She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at all drug stores. Price 50c.

Lieutenant Hamilton Not Insane.

Washington, Feb. 28.—The president has approved the sentence of the courtmartial which tried First Lieutenant John S. Hamilton, of the Twelfth infantry, on charges of embezzlement, desertion and disobedience, which found him guilty and sentenced him to a term of 18 months imprisonment in the Fort Leavenworth penitentiary. The judge advocate general, after careful consideration, reached the conclusion that Lieutenant Hamilton was not insane when the acts were committed and the president took a similar view.

James W. Conner Dead.

New Orleans, Feb. 28.—James W. Conner, president of the New Louisiana Jockey Club, and prominent in cotton and stock exchange circles for years, died here early Wednesday morning following an operation for intestinal trouble. DISCIPLINE.

We have seen schools that were as quiet as a room full of horrors. We have seen the pupils sitting in strained positions, with head erect, hands by side, or arms folded, turning neither to the right nor the left, or, if moving, moving slowly, almost wearily with downcast eye, on tip-toe, with hands clasped behind the back, whispering not, smiling not, with the light of the eye dull, and all the joyousness of childhood driven from the faces of the pupils by the fierceness of the methods of the petty tyrant in charge.

We have wondered whether the so-called school was not a prison, or a reformatory institution of some kind, and we can remember how glad we were to get out again into the fresh air and the bright sunshine of the outer world, where we could again see a child smile and hear the merry laugh, and earnest happy voices of those who were free.

We have heard such schools praised as models of excellence, as schools of faultless discipline, whose teachers, so earnest, so skilled, were worthy of memorials in brass or marble.

We never heard what became of those teachers. They are not mentioned with Arnold, or Froebel, or Pestalozzi. We are inclined to think that the progressing waves of modern educational thought have overthrown or overlapped them, and has left to us no trace of their doings or existence.

It was not discipline—it was cruelty, torture, or deviltry. It was the oppression of a weak child by a strong grown man or woman. It developed neither strength of character, nor nobility of purpose. It drove out all joyousness, all love, and made the child worse by far than if it had trained with the gamins of the gutter. Who can say that lives have not been wrecked by some petty cruelty of some petted teacher. Who can say that the moroseness, the sullenness, the petty spite or mean actions of some manhood may not have been the result of acts of oppression, committed thoughtlessly by the teacher of his boyhood?

Too much discipline, too much rule and regulation, too much of the martinet in the formalities of the schoolroom is far worse than the absence of all restraining rules. For, if a child is guided properly, carefully, thoughtfully, it will develop for good, but if it is continually and forcibly held back, if it is deprived of all freedom of speech or action, it will place itself in antagonism to the teacher, to the authority of the school, to society. The antagonism wins in the contest, but it is at the expense of society. The bad boy, so made by this faulty discipline, becomes a bad man. Who is responsible?

We have, in our later days, come to see some points on child manners and movements which we wish we had seen when we were younger. We might be happier. We know we should be prouder.

Many of the so-called disobediences of children are not wilful. Many of their bad deeds are the results of deliberate thought. Many of them are the results of parentage—of home training and surroundings. Should we not, then, carefully and patiently guide a child into the right path if we suspect such influences? Shall we beat it back, or scold it back? Or shall we, when it wanders from the path, place it again and again on the track until the little feet, by constant going, have worn a path from and for its own traveling?

It is not probable that anyone will oppose Mayor Thomas for re-election should he consent to again become a candidate. The people are satisfied with his administration of the office.

The beautiful oak trees are now donning their spring costumes of lovely green foliage.

Awful Humor Was Eating Away Face and Ears—Body Mass of Sores—Three Doctors Tried to Help Little Sufferer But She Grew Worse—After Spending Many Dollars On Doctors and Medicine

CUTICURA CURES IN TWO WEEKS AT COST OF 75c.

"I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away. Her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents, which is all it cost us to cure our baby, after spending many dollars on doctors and medicines without any benefit whatever. Mrs. George J. Steese, 701 Coburn St., Akron, Ohio, Aug. 30, 1905."

MANY ORPHANS AND LITTLE BREAD.

There are in the Thornwell Orphanage, located at Clinton, S. C., 240 orphan boys and girls, in process of securing an education. These boys and girls are of all ages from six years of age up to 17 or 18. The older pupils by their zealous labors help to support and care for the young, putting in each day four to six hours of steady work in the shops and farms and kitchen and about the same time daily on their books. In this way the cost of caring for the whole family is lessened by many thousands of dollars. But the greater majority of the children are very small, only a care instead of a help and must be aided in every way. The support of these children rests upon good men and women who love the orphans and freely aid them. Just at present, there is special need of assistance and every gift be it of provisions or of money will be promptly acknowledged. Every denomination in the State is represented among the children, but the institution is under Presbyterian control. All gifts should be sent to Rev. Wm. P. Jacobs, Clinton, S. C. Provisions, simply to Thornwell Orphanage, Clinton, S. C. It is suggested that in each community in the State, some one undertake to raise supplies for the aid of these children.

Hackett Uses His Right on Bryant's Ear and Jaw.

Raleigh, N. C., Feb. 28.—The floor of the house of representatives Tuesday afternoon was the scene of an encounter between Congressman-elect R. N. Hackett, of the eighth district, and Representative C. G. Bryant, of Wilkes county. Hackett used his right effectively on Mr. Bryant's ear and jaw. Mr. Bryant drew a long-bladed pocket knife, and made for Hackett, but was intercepted and disarmed. He then attempted to strike Hackett with and ink-stand and subsequently with a chair, but the blows fell short. When quiet was restored, Bryant apologized for his offensive words that brought on the fracas.

The fight took place while a legislative committee was in session, a matter concerning Wilkes county being under consideration. Hackett had addressed the committee, and when he closed, Mr. Bryant, a member of the committee, arose to speak. Referring to Hackett's remarks, he said that he resented the aspersion put upon the commissioners of his county. Hackett replied that he had not aspersed the commissioners. Bryant repeated the remark, and then Hackett struck him. The committee was in a tumult of excitement for five minutes. Hackett is a democrat, and Bryant a republican. Both live in Wilkes county.

Rheumatic Pains

Sore Hands or Feet

Gives Instant Relief

Minard's Liniment was prescribed by Dr. Levi Minard in his private practice fifty years ago. It is the most effective, economical, and clean-to-use external application for rheumatism, neuralgia, pleurisy, stiff, twisted joints, sore, strained, or lame muscles, tired, aching feet, any pain or ache, as well as for throat and lung troubles and as a general family medicine. So pure and antiseptic, so powerful, penetrating, and soothing. Minard's Liniment has justly earned its title, King of Pain.

CURED THIS MAN
Will Cure You

"Accept my heartfelt thanks on behalf of my aged father, who for the past six months was severely troubled with rheumatism in left arm, so much so that he could no longer work at his tailoring profession, and after consulting the leading specialists of this city, and trying enough so-called remedies to sink a boat, we finally made up our minds that he was a hopeless invalid. I can truthfully assert the fact that my father's paralyzed arm regained its full vigor and it is today as well as it ever was, after using Minard's Liniment.—

Unable to Trace Theft.

Chicago, Feb. 27.—The government officials who are working on the disappearance of $173,000 from the sub-treasury in this city Tuesday declared that they were unable to trace the theft to any one person, and they have formed the strong opinion that the disappearance is not the result of a theft, but of a clerical error. Captain Porter, of the secret service, who has charge of the case, said on Tuesday that he believed the matter would be straightened out before night. He would not say that he had abandoned the theory of a theft but other officials connected with the sub-treasury declared that the idea of an error was receiving far more consideration than that of a possible robbery.

A RELIABLE MEDICINE.

Why Our Local Druggist, W. W. Johnson, Recommends Vinol.

So many patent medicines and advertised cures are now offered to the public that our readers will be glad to know the opinion of a man who has spent years in handling them, and profit by his advice.

Said Mr. Johnson: "There is no one medicine that will cure everything, but this I do know, that if the people of Gainesville only realized the wonderful curative and strength creating power of Vinol I would not have clerks enough in my store to put up the orders for it.

"You see, Vinol is not a patent medicine, and it actually does contain every one of the fifty odd medicinal curatives actually taken from fresh cods' livers, with the useless oil eliminated and tonic iron added. It contains no poisonous drugs, and you know just what you are taking.

"Therefore, in the strongest manner we indorse and recommend Vinol to increase the appetite, cure stomach troubles, give strength to the run down, tired and debilitated, invigorate and build up old people, make rich, red blood, cure chronic coughs, colds and bronchitis. If it fails we return your money."—W. W. JOHNSON, Druggist.

NOTE.—While we are sole agents for Vinol in Gainesville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.
